

HOW TO USE

Step #1

Hover over to any Event page on vlr.gg

For example: <https://www.vlr.gg/event/466/valorant-champions-tour-stage3-masters-berlin>

The screenshot shows the event page for the Valorant Champions Tour Stage 3: Masters Berlin. The page is dark-themed and includes a navigation bar with links to Forums, Matches, Events, Rankings, and Stats. The main content area features the event title, dates (Sep 10-19, 2021), prize pool (\$700,000 USD), and location (Berlin, Germany). Below this, there are tabs for Overview, Matches (28), Pick'em, Stats, Agents, and News (39). The Overview tab is selected, showing a timeline of the event with sections for Playoffs (Sep 17-20) and Group Stage (Sep 10-16). A table titled 'PRIZE DISTRIBUTION' lists the top four teams and their respective prizes and circuit points. The 'LATEST RESULTS' section on the right shows the outcomes of various matches, including the Grand Final, Semifinals, Quarterfinals, and Group Stage matches.

PLACE	PRIZE	TEAM	CIRCUIT POINTS	NOTE

Step #3

Copy the URL of the stats page of that event.

Step#4

Open the folder and run the main.exe file and once the prompt is up, paste the URL you just copied

#Result

Once you've done that, it would have generated a csv file named table.csv containing all your data exactly like the vlr stats page.
